ANNUAL STATISTICAL SUMMARY

FY83

S. C. STATE LIBRARY

NOV 15 1983

STATE DOCUMENTS

1500 Senate Street P.O. Box 11469 Columbia, SC 29211

MEMORANDUM

TO: County and Regional Librarians

FROM: Betty E. Callaham, State Librarian

SUBJECT: Public Library Annual Statistical Summary, FY 83

DATE: November 2, 1983

The following pages contain a summary of statistics reported to the South Carolina State Library by public libraries in the "South Carolina Public Library Statistical Report" for the fiscal year ending June 30, 1983.

Changes have been made in the method used to compute mean figures and hourly circulation figures. Beginning with the FY 83 Annual Statistical Summary, primary information is used in all computations, and the hourly circulation for each library system is based on 50 weeks of service rather than 52 in order to reflect holidays and other closings.

Pages 2-11 (green) contain an alphabetical listing and rankings of all public libraries based on population, circulation, FTE staff, total volumes, volumes added, operating income, local revenue, and local revenue as a percentage of total income.

Pages 12-18 (buff) contain an alphabetical listing and rankings of public libraries according to a variety of per capita statistics including circulation, FTE staff, volumes, operating income, and local revenue. Per capita statistics are based on the 1980 census.

Pages 19-30 (blue) contain an alphabetical listing and rankings of public library registration, circulation, and reference statistics.

Sums, means, and medians are included when applicable. If more than one library is ranked equally on a given factor, each receives the same rank and is listed in alphabetical order.

This comparative data is provided to assist you in planning and evaluation. If you have any questions about the data presented, contact your Field Service Librarian.
